PENCIL PARTNERS

Dear Fairfield Members,

PENCIL Partners are Nashville-area businesses, organizations, and faith communities who make a commitment to partner with one or more Metro schools to provide additional resources and support to students. PENCIL Partners volunteer time and other resources to help children achieve academically, develop career skills, and transition from school to occupation successfully. Each partnership is unique because it reflects the needs and interest of the partner and school. The most effective partnerships involve partners who are interested in the school success and constant improvement year after year.

In order for us to accomplish this goal we will do a quarterly sign-up for volunteer assignments and school supplies/clothing needs for Chadwell students.
